

TECHNICIAN POSITION AVAILABLE AT IMBA TO WORK ON DISEASE MODELLING IN 3D BRAIN ORGANIDS

IMBA - Institute of Molecular Biotechnology is one of the leading biomedical research institutes in Europe focusing on cutting-edge functional genomics and stem cell technologies. IMBA is located at the Vienna BioCenter, the vibrant cluster of universities, research institutes and biotech companies in Austria. IMBA is a basic research institute of the Austrian Academy of Sciences, the leading national sponsor of non-university academic research.

We are searching for a

Research Technician - Knoblich Lab

to join the Knoblich Lab.

We are an enthusiastic research group working on the interface between neuroscience and medicine. Our goal is to model the development of the human brain starting from pluripotent stem cells. We have developed cerebral organoids that allow us to model diseases like epilepsy and autism in a culture dish. For more information see: Lancaster et al., Nature 2013; Eichmüller et al., Science 2022; Li et al., Nature 2024.

Your profile:

We are looking for a highly motivated team member to join our competitive research group. We offer extensive training in cutting edge cell culture, bioengineering and genome-editing methodology. Successful applicants will have at least a master's degree in biology or related fields and proficiency in cell culture. Previous experience in working with human pluripotent cells would be an advantage.

Our offer:

IMBA is an inclusive and equal opportunity employer. The institute provides a vibrant, exciting and international working environment. The initial contract will be for one year with the possibility of permanent extension. We offer a competitive salary and benefits appropriate for an international research organization. The gross annual salary for this position is € 49,000 (full-time, 40 hours/week) with a willingness to overpay for appropriate qualifications and experience. Subsidized child-care facilities are available at the Vienna BioCenter. The position is available from **April 2025**.

Applications, including a letter of motivation, a CV and the names and contact details of two referees should only be made **online**. Screening of applications and interviews will start from **March 15th, 2025**.

We look forward to your application and meeting you in person.
