

The Gregor Mendel Institute (GMI) is an international research institute founded by the Austrian Academy of Sciences and dedicated to excellent curiosity-driven research in plant molecular biology. GMI is located at the Vienna BioCenter. The Vienna BioCenter is one of Europe's leading life sciences hubs, bringing together research institutes, universities and biotech companies in Vienna. GMI is seeking a

Cloud & Identity Engineer (Azure / Entra ID / SSO)

to take responsibility for Microsoft cloud identity and access across its environment. The role focuses on Entra ID, advanced identity features, enterprise application integrations, and single sign-on, ensuring that authentication, authorization, and application access are set up securely and reliably. This is a good fit if you enjoy working where cloud services, identity, and security meet.

Responsibilities

- Administer and further develop Entra ID services and identity integrations
- Manage SSO and federation across internal and external applications
- Onboard enterprise applications and manage their lifecycle in the Microsoft ecosystem
- Implement and troubleshoot SAML, OIDC, OAuth, and related authentication and authorization
- Support advanced Entra features and identity-related security controls
- Work on access models, identity governance, and integration standards
- Support Azure topics in the context of identity and access management
- Work with infrastructure and application teams on secure, maintainable integration patterns

Your profile

Required:

- Strong experience with Entra ID / Azure AD administration
- Experience with SSO and enterprise application integration
- Solid understanding of SAML, OIDC, OAuth, and related protocols
- Experience troubleshooting authentication and federation issues
- Good grasp of identity security concepts and access governance
- Structured, analytical, service-oriented way of working
- Good communication skills, able to coordinate with technical and non-technical colleagues

Preferred:

- Experience with Conditional Access and advanced Entra features
- Familiarity with hybrid identity environments
- Experience with Azure services beyond identity
- Experience working closely with security and compliance requirements

What we offer

- A collaborative and international working environment at the Vienna BioCenter. Modern infrastructure and access to a strong scientific and administrative campus network.
- Flexible choice of work equipment
- Strong support for professional development
- Flexible working hours & up to 2 days of home office per week
- Cafeteria, on-site kindergarten, public transport subsidy (Jobticket), and much more
- An annual gross salary starting from € 65,000 (approx. € 4,643 gross per month, paid 14 times a year), with a willingness to pay more depending on your professional qualification and experience.
